Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Wednesday 11 Aug 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Mostly fine in south. Rain clearing to showers in north.

This Evening and Tonight:
Rain over north England and Scotland clearing with light rain and drizzle further south lingering for parts of the West Country. A few fog patches in the far southeast and in the north. Quite chilly in north.

Thursday:
Early drizzly rain over south and central England fading otherwise dry with sunny spells for many. Showers developing over northwestern parts, heavy and blustery with strengthening winds.

Outlook for Friday to Sunday:
Northern areas showery and breezy, decent sunny spells for eastern Scotland. Plenty of dry albeit often cloudy weather in the south but with a spell of rain over the weekend.
